

DARRELL THORVALDSON AACI, P.App, ASA, P.Ag, Q.Arb.

MANAGING PARTNER, VERRA GROUP VALUATION INC. / THORVALDSON APPRAISAL LTD., WINNIPEG, MB

Valuation professional accredited and certified by the Appraisal Institute of Canada (AIC), and the American Society of Appraisers (ASA). From 2007-2017, Mr. Thorvaldson served the AIC in many capacities on a national level including AIC Standing Committees as Chair-Admissions and Accreditation Committee (AAC), Chair-Marketing & Communications Committee, Chair-Investigating Committee, Chair-Standards Committee, Counsellor Professional Practice and as a member of the AIC Professional Practice Committee. He has served as the AIC-Advocate for Manitoba and remains a Peer Reviewer on the AIC Peer Review Committee. He served on the AIC Board of Directors of the AIC (2015-2019) and was elected Vice-President of the AIC (2017-2019). He currently serves the American Society of Appraisers (ASA) as Chair-International Credentials Committee. He served the AIC-Manitoba from 1999-2004, and President-AIC Manitoba in 2003.

Darrell Thorvaldson Q.Arb is a member in good standing with the ADR Institute of Canada (ADRIC) and the Regional Affiliate ADR Institute of Manitoba (ADRIIM). Darrell is a Qualified Arbitrator and received his designation in 2021. Since 1988, he has served Manitoba's wide ranging business communities in public and private sector capacities.

With over twenty-five years' experience in the valuation industry, in both the public and private sectors, Mr. Thorvaldson has practiced as a generalist for most of his career. He has extensive experience and expertise in valuation associated with all property types – real property (real estate) and personal property (M&E). Since the mid 1990's, Mr. Thorvaldson has completed professional appraisal reports for all levels of Government, major lending institutions, corporations, insurance, legal and accounting firms and individuals. He has provided advice and value opinions on some of the province's largest properties and challenging real estate problems for individuals & major Canadian financial institutions. He holds a Transport Canada Pilot Certificate – Small Remotely Piloted Aircraft Systems (RPAS).

His experience includes valuation and advisory services for property appraisals including offices, industrial, multi-family (high-rise apartment), retail and development sites with services provided on regular basis in Winnipeg and throughout Manitoba. He has appraised the Canadian Forces Base (CFB) Shilo Range Training Area and appraised the Kapyong Barracks property located in Winnipeg, Manitoba. The Barracks appraisal was completed in accordance with a Treasury Board Policy Directive on the Sale or Transfer of Surplus Property and Appraisals and Estimates Standard for Real Property regarding sale of federal property commissioned on behalf of Department of National Defense (DND). He has completed complex assignments including the market lease analysis for the relocation of Canada Revenue Agency office to 360 Main Street in Winnipeg, the valuation of the Freshwater Institute property located on the University of Manitoba Campus in Winnipeg, Manitoba and a number of properties for the City of Winnipeg including a large right-of-way known as the Kenaston Snow Dump Site. He provides expert services including advice and analysis for issues related to expropriation, right-of-way assembly, partial taking, injurious affection & disturbance, of which he has extensive experience. He has completed Government of Canada residential appraisals for RCMP housing requirements throughout Manitoba.

Mr. Thorvaldson has extensive agricultural experience and has been appraising agricultural property throughout Manitoba since 1994. He has completed Government of Canada portfolio appraisals on 19 PFRA pasture appraisals (2013-2016) throughout Manitoba & Saskatchewan. He has completed agricultural land appraisals for owners, the Province of Manitoba, the Manitoba Farm Mediation Board, for review by Canada's Eco- Gift Program, for review by Canada Revenue Agency (CRA), Nature Conservancy of Canada, Ducks Unlimited, and review by the Internal Revenue Service (IRS) – U.S. Department of the Treasury. Completed agricultural property appraisals across Manitoba including modern commercial operations specializing in dairy, swine, poultry, feedlots, grain storage/seed plants. He has appraised partial-interest conservation easements.

He has published in the AIC magazine, with nine articles appearing between 2008 and 2019. After leading a re-write of the Canadian Uniform Standards of Professional Appraisal Practice (CUSPAP 2016) as Chair of the AIC National Standards Committee, he explained all 80 revisions of the Standards in three nationally broadcasted webinars to AIC Members across Canada. He has presented at numerous conferences across the country and recently presented for the Alberta Municipal Government Board (MGB) and for the Canadian Property Tax Association (CPTA) in 2017, in advance of regulatory changes impacting assessment. As a machinery and equipment appraiser, he has extensive experience appraising a broad range of machinery and equipment across Canada, including individual assets, heavy equipment, rolling equipment, laboratory assets, agricultural and agri- business equipment, production lines and entire facilities. His machinery and equipment appraisals have been used to assist with lender financing, determination of purchase price, allocation of purchase price, a number of different insurance purposes including loss settlement, leasing, corporate decision making and management considerations, and taxation. Mr. Thorvaldson also has completed inventory valuation assignments, a specialized appraisal area. Mr. Thorvaldson is a trusted and well-known valuation industry leader in Canada. His reports are completed in accordance with the Canadian Uniform Standards of Professional Appraisal Practice (CUSPAP) and where specified, the Uniform Standards of Professional Appraisal Practice (USPAP). His reports are accepted world-wide and meet international valuation standards established by the International Valuation Standards Council (IVSC) and the European Valuation Standards (EVS). During his time as Chair of four national AIC committees, he led structural changes in the areas of professional practice processes & Standards, education (course development), candidate mentorship processes, and the current website design.
